EDUCATION

ATILIM UNIVERSITY

UNDERGRADUATE STUDENT | 2016 - 2022

COMPUTER ENGINEERING

BATIKENT HIGH SCHOOL

STUDENT | 2011 - 2015

EXPERIENCE

FREELANCE

- As a freelancer, I have developed a content management system from scratch with PHP. Designed the MySQL database with respect to CMS.
- Designed many commercial and portfolio websites.
- Currently, I'm working on a commercial React Native project.

GRADUATION PROJECT

On my graduation project with my colleagues we developed an Image Classification model using transfer learning methods.
Our model achieved %95 accuracy ratio on classification of SEM images.

INTERNSHIP RESEARCH

During the internship, I did research on Google products and Google partnerships. Also, I worked on Google Ads API and Google Ad Manager API.

LANGUAGE

- **ENGLISH C1**
